Nan,

Attached are the pictures and field screening analytical for the 2 drums that were found at the Site with Cognis labels. If you have any further questions let me know.

Subject: Superior Barrel & Drum Site - USEPA January 2014 Request for Information addressed to Cognis Corporation

This will confirm my voice mail message. On August 22, 2014 Cognis Corporation c/o BASF received the USEPA January 2014 Request for Information on this site! (It was post marked August 19, 2014 from EPA's offices in Edison, NJ.) Initially, I want to confirm that we have 30 days from receipt to respond to the Request.

You may recall that BASF itself received an identical Request in late January. It responded to the Request in March. It was able to respond to the request after receiving and reviewing the nexus photos supplied by your office.

BASF acquired Cognis Corporation in 2010. At the time of acquisition Cognis had a number of operating facilities located throughout the United States. I would like to again request any nexus information, including photos, that would enable me to efficiently and effectively respond to the Request.

Thank you for your anticipated cooperation.

Nan
